

A-TANK

WATER TRUCK

★ **THE FLAGSHIP** ★

Built for the roughest ground on the job site — dust control, fire suppression, and potable water, hauled by the industry's toughest tank.

**CONSTRUCTION****AGRICULTURE****LOGGING & MINING**

The finest off-road support equipment in the world— backed by **over 60 years** of experience.

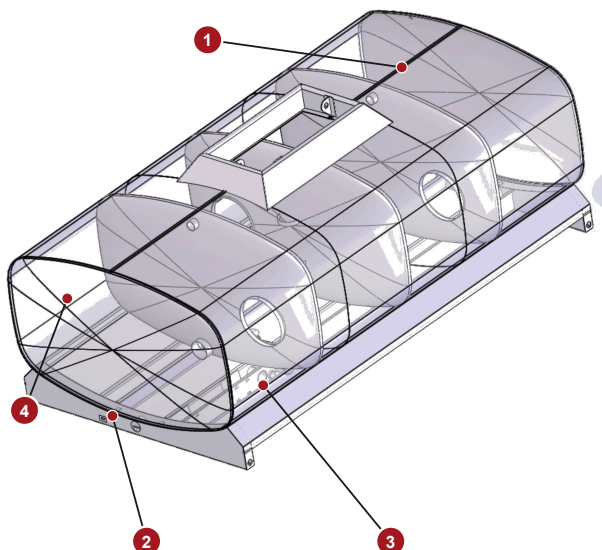

SERVING THE INDUSTRY SINCE 1966

**AMERICAN-MADE**
EXCELLENCE

A-TANK WATER TRUCK

BRING WATER WHERE YOU NEED IT.

MCLELLAN "A" STYLE TANK CONSTRUCTION

1 SINGLE LONGITUDINAL WELD SEAM

A stronger shell with better structural integrity that extends the life of your truck.

2 FULL BOX BOLSTER

1/4" double-welded bolsters double the strength over the competitor's "L" shaped, single weld bolster.

3 BOX SECTION SUB-FRAME

Lengthens tank life by distributing the weight of a full load over more contact area than an "L" section sub-frame.

4 DISHED & FLANGED HEADS & BAFFLES

Increased structural integrity and road safety – prevents accelerated fluid movement when braking.

BUILT FOR

Dust control, construction, potable water, fire suppression, and more. Meets all current water tank standards.

STANDARD

- 2000–6500 gallon tanks
- Cab controls
- Four (4) spray valves – two front, two rear
- Diesel Engine, Hydraulic, or Direct Drive PTO
- PermaSlat mounting
- McLellan 4-point off-highway hold down system with elliptical leaf springs
- Dished and flanged heads
- Full fenders
- Access ladder / hydrant fill
- Hydrant fill
- Rear sight gauge
- 24" x 48" fill dome
- Rear bumper 8" pipe
- Amber strobe light
- Safety kit
- D.O.T. lights, LED
- Paint (single color)
- Electronic lever throttle (standard on Hatz engine)

OPTIONAL

- 2" or 3" pneumatic or manual side spray
- Street flush
- Extra spray valve at rear, or center valve at rear, top, or bottom
- Self-loading valving, pump, and coupling
- Two 10' hose sections with camlok ends
- Suction screen
- Storage tubes
- 3" foot valve
- Stainless steel tank
- Sight gauge (front driver side)
- Manual, spring, or power rewind reels with 50' of 1-2" hose
- 12 volt work lights
- Air or manual dump 4–10 inches
- Air throttle (Deutz engine)
- Monitor assembly Elkhart
- Longitudinal baffle
- Internal tank coating
- Tool boxes 18" x 18" x 36" (space permitting)
- Light bars

Pictured w/ optional equipment.

COMPLETE REFURBISHING, REPAIR, & MACHINE SHOP FACILITIES

SPARE PARTS AND R&D SPECIALISTS AVAILABLE

Manufactures & dealers of:

Water trucks · Fuel trucks · Fuel/lube combination trucks · Mechanics trucks · Water distribution valves

Systems & supplies:

Automatic fueling systems · Complete line of fuel, oil, and water reels · 100% hydraulic oil pumps · All types of fuel/water hose and fittings · Water tanks

Parts & equipment:

Nozzles (oil, water & fuel) · Water truck pump and engine kits · New and used diesel trucks · PermaSlat tank supports · Complete line of lubrication equipment
