EXCELLENCE

STAGE II FUEL TRUCK

BRING FUEL WHERE YOU NEED IT – CLEAN AND COMPLIANT.

MCLELLAN FUEL TANK CONSTRUCTION

1 STAGE II VAPOR RECOVERY SYSTEM

Integrated vapor nozzle captures fugitive vapor at the source, keeping every transfer clean and compliant.

2 LOCKABLE MANWAYS

Wide-access covers make tank inspection, cleaning, and service fast and straightforward. (Pictured with dual manways for aircraft fueling.)

3 FULL-LENGTH CATWALK DECK

Anti-slip walkway spans the entire tank top for safe, stable footing during top-loading and hookups.

THE MCLELLAN ADVANTAGE

- Stage II vapor recovery captures fugitive vapor during transfer, keeping refueling clean and compliant.
- Also compatible with Stage I vapor recovery for capturing vapor when loading the tank at the rack.
- PTO driven fuel system delivers fast, reliable flow wherever the fleet is working.
- Rear-mounted ladder & rail give operators secure catwalk access.

STANDARD

- 300–4,000 gallon tank, non-spec mild steel
- Off-highway leaf spring mounting
- PTO driven fuel delivery, 60 GPM
- 1½" x 50' spring rewind reel
- Meter
- Beaver tail deck
- Western style rear bumper
- LED lights – tail, stop, turn & marker
- Safety kit, fire extinguisher, back-up alarm

OPTIONAL

- Reel box compartment
- Work lights
- Bottom load system
- Amber strobe light
- Tool boxes to fit chassis
- D.O.T. 406
- Stage I & II gasoline
- NFPA 407 (for aircraft refueling)
