

NOW HIRING — MINING DEPARTMENT

HEAVY/STRUCTURAL WELDER-FABRICATOR

Skilled welding & fabrication on heavy, structural components for McLellan's mining and off-road equipment lineup.

**DUAL SHIELD (FCAW)****PULSE & SHORT ARC MIG****PLASMA CUTTING****STRUCTURAL FABRICATION****WHAT YOU'LL DO**

- 1 WELD HEAVY & STRUCTURAL COMPONENTS**
Dual Shield (FCAW), Pulse MIG & Short Arc MIG welding processes.
- 2 READ ENGINEERING DRAWINGS**
Interpret blueprints, weld symbols & production drawings.
- 3 FABRICATE TO SPEC**
Measure, mark, fit, align, tack & weld to dimensions and tolerances.
- 4 OPERATE SHOP EQUIPMENT**
Set up & run welding equipment, plasma cutters & other fab tools.
- 5 MAINTAIN WELD QUALITY**
Ensure proper penetration, appearance & consistency on every joint.

REQUIRED QUALIFICATIONS

- 3-4 years professional welding & fabrication experience
- Proficient in Dual Shield, Pulse MIG & Short Arc MIG processes
- Ability to read & interpret engineering drawings/blueprints
- Experience with plasma cutting
- Basic knowledge of layout methods, hand & power tools
- Ability to accurately read & use a tape measure
- Dependable, punctual & safety-focused

WHAT YOU BRING

- 1 3-4 YEARS EXPERIENCE**
Professional welding & fabrication, preferably heavy/structural manufacturing.
- 2 MULTI-PROCESS PROFICIENCY**
Dual Shield, Pulse MIG & Short Arc MIG welding processes.
- 3 BLUEPRINT & DRAWING LITERACY**
Reads engineering drawings and weld symbols accurately.
- 4 PLASMA CUTTING EXPERIENCE**
Comfortable with plasma cutting & material prep processes.
- 5 DETAIL-ORIENTED & DEPENDABLE**
Strong attention to detail, teamwork & consistent productivity.

PREFERRED QUALIFICATIONS

- Experience in heavy equipment, structural steel, or industrial fabrication
- Welding certifications are a plus
- Experience with complex structural assemblies & heavy-gauge materials
- Mechanical aptitude and general fabrication knowledge

PHYSICAL REQUIREMENTS & WORK ENVIRONMENT

FAST-PACED PRODUCTION ENVIRONMENT

- Ability to stand, walk, bend, kneel & reach while working in various positions for extended periods.
- Ability to work safely around welding operations, heavy machinery, heat, sparks & industrial equipment.
- Willingness to wear required PPE at all times and follow all company safety & OSHA requirements.

KEY ATTRIBUTES: Safety · Quality · Dependability · Teamwork · Focus · Attention to Detail · Accountability · Mechanical Aptitude · Willingness to Learn
