FULLY WELDED TANKS

DROP-ON READY

PTO, HYDRAULIC OR ENGINE DRIVE

The finest off-road support equipment in the world— backed by **over 60 years** of experience.

A2 KIT – TANK, HOLD DOWN & LADDER

A3 KIT – FULL SPRAY & PUMP PACKAGE

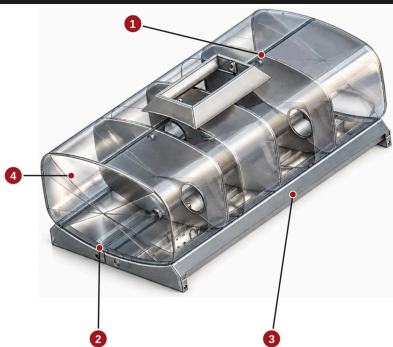

SERVING THE INDUSTRY SINCE 1966

AMERICAN-MADE
EXCELLENCE

MCLELLAN "A" STYLE TANK

THE BEST BUILD ON THE MARKET.

1 SINGLE LONGITUDINAL WELD SEAM

A stronger shell with better structural integrity that extends the life of your truck.

2 FULL BOX BOLSTER

1/4" double-welded box cradles spread the load into the frame, as opposed to a single-weld "L" bolster that stacks it at the saddle – where tanks crack first.

3 BOX SECTION SUB-FRAME

A closed box section holds its shape under load, whereas an open "L" section twists and leaves the tank fighting the chassis – working the seams loose.

4 DISHED & FLANGED HEADS & BAFFLES

Increased structural integrity and road safety – prevents excessive fluid movement when braking.

KIT OPTIONS

A1 KIT

- 1 Hold-down kit
- 1 Fully welded 'A' style tank including:
 - Full length fenders
 - 24" x 36" x 10" fill opening
 - Perma-slat mounting

- 4x3 750 GPM pump – hydraulically driven, PTO driven, or engine driven
- 1 Fully welded 'A' style tank including:
 - Full length fenders
 - 24" x 36" x 10" fill opening
 - Perma-slat mounting
 - Bonnies for right rear sight gauge, plugged

Perma-Slat Mounting

Full-Length Fenders

Four-Point
Hold Down

PERMA-SLAT MOUNTING & FULL-LENGTH FENDERS – LOAD SPREAD ALONG THE FRAME

EVERY A-TANK KIT SHIPS WITH

1 FULLY WELDED "A" STYLE TANK

2,000 to 10,000 gallon, single longitudinal weld seam.

2 HOLD-DOWN KIT

McLellan's four-point off-highway hold down – in every package.

3 PERMA-SLAT MOUNTING

Spreads the load along the frame instead of concentrating it on the rails.

4 FULL LENGTH FENDERS

Fender runs the full length of the tank.

5 24" X 36" X 10" FILL OPENING

Large target with a tall spill guard – faster fills, less waste.

6 SIGHT GAUGE BONNIES, PLUGGED

Right rear, ready for gauges.
